

Cannon Project Details

Natwest/RBS National Roll-out 2,600 locations around the UK

The client, in conjunction with IBM, selected Cannon to equip approximately 2,600 Bank locations around the UK. Over 5,500 enclosures were delivered and installed, to varying equipment specifications.

Thermal trials were carried out by Cannon at their laboratories to prove cooling solutions for thirteen differing build standards.

Special air flow plenum kits were designed and tested by Cannon to equip the varying needs.

Cannon carried out extensive installer training at New Milton to ensure installation was executed to specification.

The project was completed on time and to budget.
