

## **Cannon Technologies Group Ltd**

### **WEEE Directive 2002 / 96 / EC The Waste Electrical and Electronic Equipment Regulations 2006**

The Cannon Technologies Group specialises in the design, procurement and manufacture of enclosures and associated electronic equipment.

The Company places particular emphasis on expertise, performance, quality, safety and environmental considerations.

All the following products groups marked with the Cannon Technologies logo or name are included in the scope of the Company's WEEE obligations by virtue of these being dependent on electric currents in order to work properly

- PDUs
- Cannon Guard, including doors
- Special electrical equipment for the T4 Data Centres
- Fan trays
- Control units
- Display screens

The following product groups are considered to be outside the scope of the company's WEEE obligations. These products are not dependant on an electrical current in order to work properly

- |                              |                  |
|------------------------------|------------------|
| ● Wall Mounted Boxes         | ● Raceways       |
| ● Servers Racks              | ● Rafts          |
| ● Server Cabinets            | ● Plinths        |
| ● Street Cabinets            | ● Mounting posts |
| ● Cold Aisles                | ● Side panels    |
| ● Cable Trays                | ● Doors          |
| ● Shelves                    | ● Roof           |
| ● T4 Data Centre's structure |                  |

Unless otherwise agreed, electrical products manufactured with the Cannon Technologies Group logo or name, the Company expects the end users of these products to take responsibility regarding end of life WEEE recycling.

Cannon Technologies Group's WEEE waste outside the UK is the responsibly of the International Distributors

Information on Cannon Technologies Group electrical products is available on request

Cannon's design procedures take into account the requirements for end of life disassembly and recycling / recovery of electrical product.

Compliance to the directive will also be indicated on packaging or warranty statements
